

InvoiceCheck

PRO

Automatically check invoices and e-invoices

Local preliminary checking for companies, self-employed professionals and accounting - no cloud required, directly on your Windows PC.

Local & private

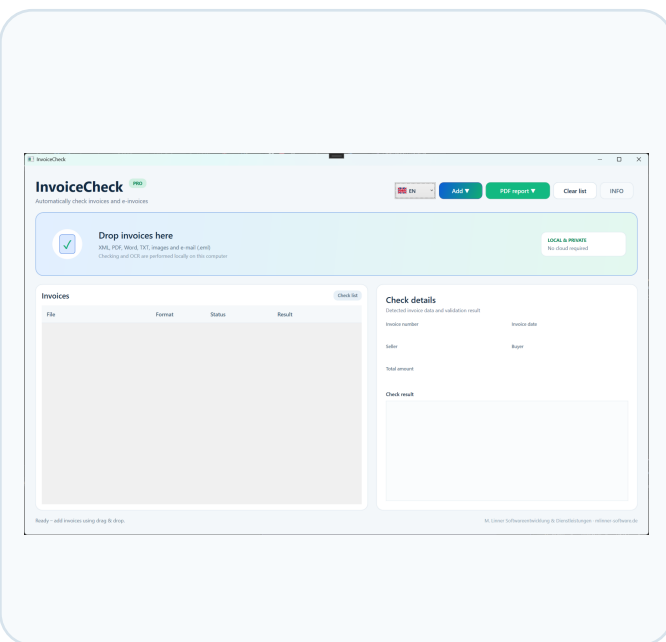

Multilingual

PDF report

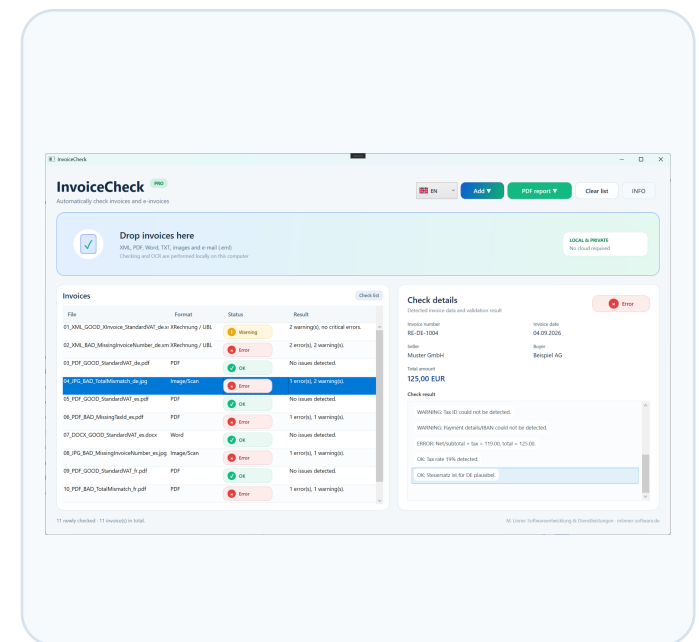

OCR & e-invoice

How InvoiceCheck works

1 Add invoice

2 See the result instantly

Simple workflow

Drag & drop or select file automatic check clear status

What is checked?

- Invoice number, date, seller and buyer
- Amounts, currency, tax rate and arithmetic plausibility
- XML/XRechnung/UBL, PDF, DOCX, TXT, images and e-mail (.eml)
- OCR for scanned invoices and images

Key benefits

-  **Save time**
Automatic preliminary checking instead of manual control.
-  **Detect errors earlier**
Missing or implausible data is clearly highlighted.
-  **Work locally**
No cloud required - documents remain on your computer.
-  **Multilingual interface**
German, English, Spanish, French and Italian.
-  **Document in PDF**
Individual report or combined report for all loaded invoices.
-  **Many formats**
PDF, XML, DOCX, TXT, images and e-mail files.
